Life on an activity
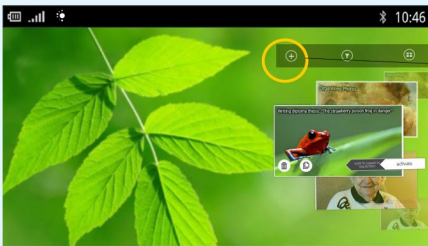

Create a new activity by touching the add plus-icon
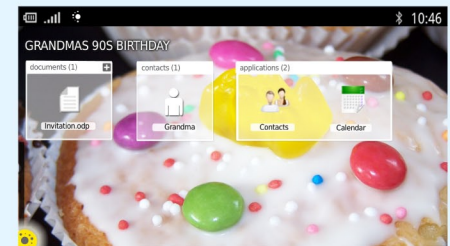

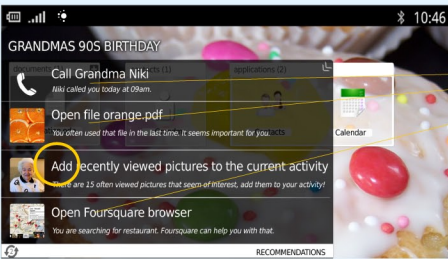

Wizard: Create new activity

New activity is created with first resources
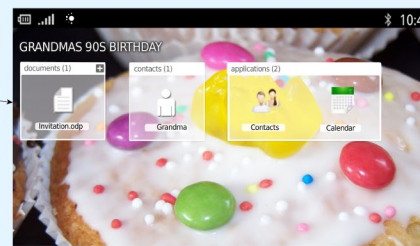

The recommendation start to analyse and provide suggestions after using it for a while
-> the recommendation icon start to blink softly and it gets a color overlay

Wizard new activity:
1- insert a name
2- edit the wallpaper or take the default one
3- touch create

GRANDMAS 90S BIRTHDAY
documents (1) contacts (1) applications (2)
Invitation.odp Grandma Contacts Calendar

adding new resources: via the recommendation overlay

The next time the user opens the recommendation overlay, it has changed and adapted to the new context and actions

GRANDMAS 90S BIRTHDAY
Call Grandma Niki
Niki called you today at 09am.
Open file orange.pdf
You often used that file in the last time. It seems important for you.
Add recently viewed pictures to the current activity
There are 15 often viewed pictures that seem of interest, add them to your activity!
Open Foursquare browser
You are searching for restaurant. Foursquare can help you with that.
RECOMMENDATIONS

opens direct action: for example cellular call with grandma Niki will be initiated and call page will be directly opened. Or the file or browser opens directly after touching.

adds the recommended resources to the current activity;
short dialog appears with the fotos and the possibility to select the desired photos; then a new box with type "images" will be added with the 15 photos

GRANDMAS 90S BIRTHDAY
