

digikam v. 6.0.0 Template Problem

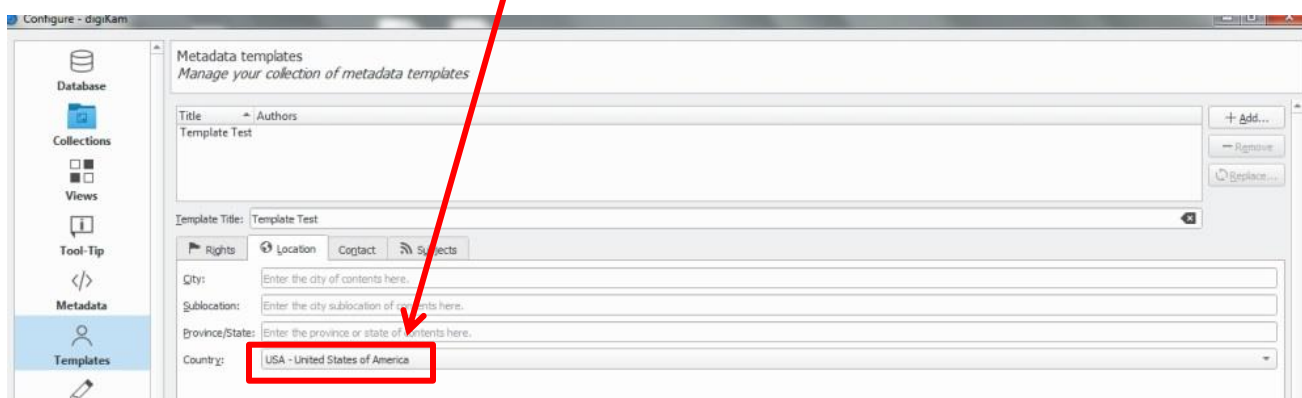

Here is what is displayed when I click on Settings/Configure digiKam/Templates:

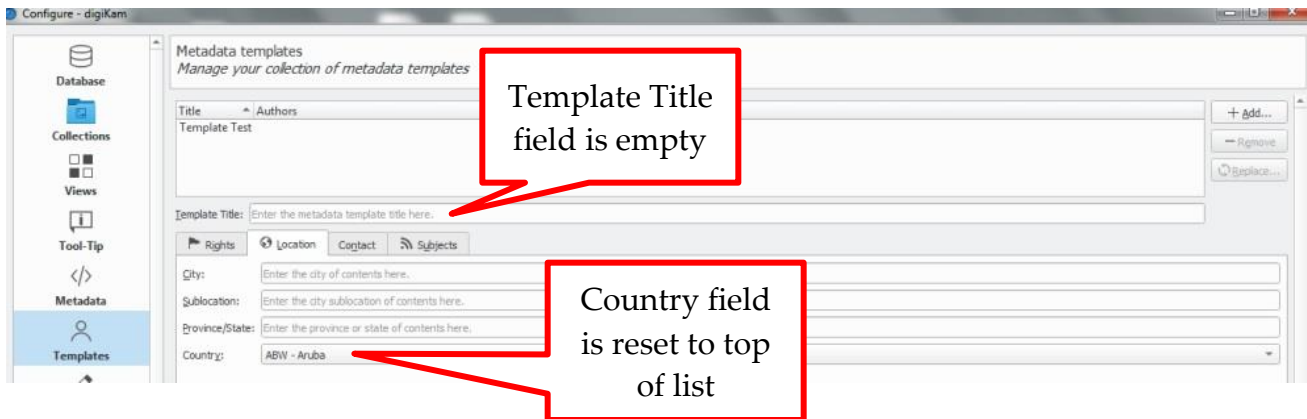

I enter "Template Test" into the "Template Title" field. When I click on the "Add" button, the template title is displayed in the upper field.

I then select a Country from the drop down box and click on the OK button:

When I go back and click on Settings/Configure digiKam/Templates, here is what I see:

It does not make any difference whether I select the country before or after clicking on the Add button.
