

KDEPrint Fax Tool Log

Converting input files to PostScript

Sending fax to 802-0470 (Grace Mitchell (Work/Fax))

Sending to fax using: /usr/bin/faxspool -F 'John Mitchell' -D 'Grace Mitchell (Work/Fax)' '8020470'
'/tmp/kde-jay/kdeprint_qMlqt1av'

faxq-helper:

Neither fax.allow nor fax.deny exist,
so only 'root' may use the fax service. Sorry.
can't create new job directory, give up
