27451 Hwy 32, Lebanon, MO 65536  
Office/fax: 417.532.6006, Cell: 417.664.7430

Dear Sir,

I am trying to use the plug in for check printing on KmyMoney 5. The main issue I'm having is the address layout. The entire address print in one line instead of a two line format. Example: 27451 Hwy 32, Lebanon mo 65536 is how it currently does.

Example: 27451 Hwy 32  
Lebanon MO 65536 This is how I need it to print.

Is there any way I can customize any of the other positioning? Thank you in advance for your help.
